To Whom It May Concern:

Re Andy Hueppi

I am writing this letter to give a reference for Andy Hueppi.

I have known Andy since 2000. We have done very many Hockey Canada tournaments and events in that time. Events have included Mens hockey in Olympics, Men's World Championships, and many Spengler Cups. We have done at least 15 events together. I have worked very closely with Andy in the care of many professional hockey players with their health care. He is a very accomplished massage therapist who is very skilled in his profession. He has an excellent work ethic and he is never standing still when not giving massages. He does many things for the team to achieve success and helps out the doctors, the equipment managers. He has been very effective in keeping athletes in play despite the high frequency of games in a short period of time. I have watched the respect the players give him for his work. He is very honest, trustworthy, and respectful of other cultures in our travels. He has always been keen to get to know the local language and is keen to get to know the people who work in all the rinks. He has an excellent personality and easily engages those who work around him.

Andy will be an excellent employee who will be dedicated and hard working. I would love to have Andy on any team I work with and I am happy to provide more information by phone call if required.

Yours truly,

Dr Jim Thorne BSc, MD, CCFP, DipSportMed

Team Physician Hockey Canada

Team Doctor Calgary Flames Hockey Club (NHL)

Head Team Doctor Calgary Stampeders Football Club (CFL)
